

AMENDMENTS TO THE SPECIFICATION

Please replace the paragraph (table row) at page 55, row 6 with the following replacement paragraph (table row):

83	T46372	11360168	hypothetical protein DKFZp434P1818.1 - human (fragment) (SEQ ID NO:396)	3	1	2.07	2.07	1.00×10^{-2}	6240
----	--------	----------	---	---	---	------	------	-----------------------	------

Please replace the paragraph (table row) at page 54, row 19 with the following replacement paragraph (table row):

92	XP_057927.2	20535708	similar to KIAA1902 protein [Homo sapiens] (SEQ ID NO:397)	1	1	1.75	1.75	4.58×10^{-3}	5802
----	-------------	----------	---	---	---	------	------	-----------------------	------

Please replace the paragraph (table row) at page 54, row 15 with the following replacement paragraph (table row):

9	NP_443204.1	16418467	leucine-rich alpha-2- glycoprotein [Homo sapiens] (SEQ ID NO:398)	14	11	1.62	1.62	1.21×10^{-2}	9467
---	-------------	----------	---	----	----	------	------	-----------------------	------

Please replace the paragraph (table row) at page 58, row 6 with the following replacement paragraph (table row):

57	NP_000168.1	4504165	gelsolin (amyloidosis, Finnish type); Gelsolin [Homo sapiens] (SEQ ID NO:399)	1	1	0.14	-7.09	8.16×10^{-3}	4055
----	-------------	---------	---	---	---	------	-------	-----------------------	------

Please replace the paragraph (table row) at page 58, row 2 with the following replacement paragraph (table row):

62	NP_002336.1	4505047	lumican [Homo sapiens] (SEQ ID NO:400)	1	1	0.62	-1.55	1.77×10^{-6}	8166
----	-------------	---------	---	---	---	------	-------	-----------------------	------
